

Custom Manufacturing

From Concept to Creation: Complete Solutions

Every great collection starts with a conversation. Our team collaborates with you to develop apparel that fits your needs – functionally, aesthetically, and sustainably. As a vertically-integrated company, we facilitate a **one-stop solution** for uniquely designed, intelligent apparel, providing advantages in quality, lead time, and flexibility. With custom design, proprietary fabrics, full-scale production, and precise color customization, we bring your vision to life from the **first sketch to the final stitch**.

Full End-to-End Workflow

High-Performance Knitted Products

Sustainable, Eco-Friendly Fabrics

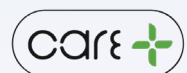

Custom PMS Color Matching

Flexible Minimum Order Quantity

Our Fabric Technologies: Where Your Brand Begins

Our Nan Yang Fabric Innovations Center develops and produces technically advanced materials – moisture-wicking knits, sustainable recycled fibers, and precision stretch fabrics – each designed, tested, and refined in-house.

We want to be your custom manufacturing partner.
Reach out and let's start the conversation.
