

tri-reg™

extremely technical fleece

**THERMO
WARM**

- Body Heat Regulation
- Moisture Management
- Wind Protection
- Soft Feel

Tri-Reg™ is a proprietary Zorrel® fabric that integrates three essential performance features: body heat regulation, wind blocking, and moisture wicking. This innovative fabric keeps you cool when it's warm, warm when it's cool, and dry in nearly all conditions, ensuring comfort in any temperature.

Thermo Warm is engineered to keep you warm with advanced yarn technologies and specialized knitting constructions. It efficiently transfers heat through conduction paths, acting as a buffer against harsh temperature swings, and providing optimal thermal comfort.
